

Formula and Guideline for Amounts of Insurance (Financial Underwriting)

Each carrier has its own specific guidelines. This information is meant to give you a general guideline to help you in the Financial Underwriting process. See specific carrier guidelines to determine if third-party financials are needed.

What Is Financial Underwriting?

Financial underwriting is the analysis of an individual's financial situation which takes place every time a life insurance case is underwritten. The purpose of this evaluation is to determine the need for insurance and to make sure the amount of insurance applied for is reasonable and in line with the insured's needs.
